

Release form for Socialized Play & Doggy Daycare

Rules to play

Current shot records are required for socialized canine play registration and participation. You must either call us with your veterinary information ahead of time so we can verify immunization records or bring the veterinary records with you at check-in. Any pet that is not current on vaccinations may be turned away. We highly recommend having your dog's kennel cough vaccine done 7-10 days prior to attending daycare.

No Aggressive Dogs. For safety purposes, we reserve the right to excuse any dog that exhibits aggressive behavior. Dogs will be removed from the playtime upon the first sign of aggression and may no longer be allowed in playtime in the future.

Sick dogs are not permitted. If any dog appears to be of ill health, they will not be permitted into the playgroup. This includes but not limited to any vomiting or diarrhea, goopy eyes or coughing.

An assessment of your dog's temperament and socialization must be made prior to allowing that dog into the playtime for boarding or doggy daycare.

All animals must be spayed or neutered if over 6 months of age to be allowed in the playgroup. (dogs older than 6 months are allowed to board if not neutered or spayed but not participate in playgroup)

***We highly recommend** your dog be on year around flea preventative and parasite control (heartworm medication). If your dog is seen to have fleas or parasites while in our facility, we will automatically treat and you will be charged for that treatment.
